FAQs

What is the Fruit & Vegetable Prescription Program?

The Fruit & Vegetable Prescription Program allows health care providers in your community to write prescriptions for fresh fruit & vegetables for individuals and families. Participants receive vouchers to spend at farmers' markets and other retail options - giving additional purchasing power to people who need it most.

Can customers use more than 1 Voucher at a time?

Yes, there is no limit to the number of Vouchers customers can use.

Do they expire?

Yes, be sure to use them by 3/31/21!

Can customers get change for Vouchers?

No, so it's recommended to purchase as close as possible to the whole dollar amount of the combined vouchers.

For example, if the fruit and vegetable purchase is \$9.89, they will need to use two \$5 Vouchers but will not receive \$0.11 in change.
